Package nrao
Module e2e

Helper tool for e2e processing

Description

This is experimental and under rapid development: please do not use!
The NRAO End-to-End project (e2e) has the goal of providing end-to-end processing of data from telescopes. This is being developed for NRAO telescopes (VLA, VLBA, GBT, EVLA), but is being designed for general use.

1.3.8 e2eimagingutils - Tool

Package nrao
Module e2e

Helper tool for e2e processing
